Proprietor: Martin Savale

Entity: Meta Guinea Ghost Ltd

Location: Brighton, UK

Filing Date: January 7, 2026 | 06:45 AM GMT

Legal Basis: UK Property (Digital Assets etc) Act 2025.

I. HAWK AI (The Scout): Features proprietary **Motion Graphic LED Orbiting Ring Anchoring**. Uses active circular LED targets to resolve AI spatial drift via elliptical mathematical analysis, enabling millimeter-precise 3D anchoring for digital assets.

II. PULSE BUTTON (The Heart): A **Global Input/Output Interaction Hub** for real-time collaborative jamming and educational asset-serving. Bypasses standard AI latency to serve users positioned all over the globe.

III. DRAGON CHIP GHOST AMP (The Multiplier): A **Power Boost Multiplier** designed for **Series Stacking** (up to 6 units). Hardware-accelerated pipeline for infinite processing growth via high-speed serial-link.

⚖️ **THE FAIL-SAFE (DEFENSIVE PUBLICATION):** This record constitutes an official **Defensive Publication**. By disclosing the technical logic of the *Motion Graphic LED Orbiting Ring* and *Serial Stacking* mechanisms, the proprietor (**Martin Savale**) establishes **Prior Art** under the Patents Act 1977. This renders these methods non-novel for any third-party patent applications, securing the permanent **Freedom to Operate** for **Meta Guinea Ghost Ltd**.
